monicaaddepalli@gmail.com

Around 2 years of experience designing B2B and B2C products across healthcare and e-commerce. Experienced in complex workflows, design systems, information architecture, and AI-assisted experiences. Focused on simplifying complex workflows through user research, rapid prototyping, and cross-functional collaboration.

SKILLS

Product Design

UX Design, UI Design, Interaction Design, Micro interactions, User Flows, Information Architecture, Wireframing, Prototyping, Visual Design, Responsive Design, Mobile Design, Web Design

UX Research & Validation

Usability Testing, User Interviews, Journey Mapping, Behavioral Design, Qualitative Research, Experimentation, Data-Informed Design

Design Systems & Execution

Design Systems, Component, Tokens, Accessibility, Documentation, Scalable Patterns, Design Critiques, Design Reviews

Tools & Collaboration

Figma, Figma Make, Framer, Miro, Notion, ChatGPT, Claude, Creatie, Jitter, Lottie, Canva, ProtoPie, Wix Studio, GitHub, Vercel v0, Lovable, Cross Functional Collaboration, Agile Workflows

AI & Workflow Design

Workflow Automation, Conversational UX, AI-assisted Workflows, Prompt Systems

EDUCATION

Bachelor's of Technology, CSE

Dayananda Sagar University
2020 - 2024

RECOGNITION & AWARDS

Medibuddy

Star of the Month - Feb'25

PROFESSIONAL EXPERIENCE

Associate Product Designer

MediBuddy ▪ 06/2025 - Present

- Improved doctor booking **conversion to 32%** and reduced null searches from **40% to 5%** by redesigning Offline Consultations search and filters with symptom-based discovery and auto-suggestions, **driving ₹3 Cr+ monthly GMV**.
- Designed the **Hospital Profile Page** to improve **hospital discoverability**, build user trust, and enable **easier** doctor discovery and appointment booking.
- Built a **Chrome extension** using Claude to simplify QA auditing, **reducing manual effort by 60%** through faster issue reporting and QA handoff workflows.
- Designed and built the About Us landing page using Claude and Vercel, leveraging AI-assisted development to rapidly iterate, prototype, and deploy a responsive web experience.
- Designed healthcare experiences serving **20 lakh+ monthly active users** across multiple product surfaces.

Product Design Intern

MediBuddy ▪ 12/2024 - 05/2025

- Increased cashless reorder adoption to 23%** and **drove ₹12 Cr monthly GMV** by redesigning reimbursement-to-cashless healthcare journeys using user research and behavioral insights.
- Achieved 95% design system adoption** by optimizing component libraries, tokens, and reusable patterns.
- Led the redesign of the Vision Care feature, **increasing conversions by 7%** and driving **₹54 Cr in GMV** within 6 months.
- Conducted usability testing, analyzed behavioral data, and incorporated customer feedback to improve engagement and conversion outcomes.

PERSONAL PROJECTS

GrowHive

- Growhive is a platform for students and professionals to learn new skills, expand their network, and receive career opportunities.
- Designed the entire product experience, mobile apps (iOS & Android) and a marketing website.

Verdu

- Eco-Friendly Shopping App with Integrated Sustainability Education
- Designed Verdu, a sustainability-focused mobile app aimed at empowering users to make eco-friendly choices in their daily lives.
- Designed the UI/UX of the app to create an intuitive and engaging user experience, incorporating educational content on sustainability practices.
